THERMOFOIL Doors

Thermofoil cabinet doors look and feel like finished wood cabinet doors. They are comprised of an MDF panel, that is wrapped in a high grade vinyl material.

Thermofoil cabinet doors are very durable, easy to clean and will keep their color long after wood doors have started to fade.

Thermofoil cabinet doors are available in some of the same styles as our wood doors, plus a few specialty doors. They are available in satin, solid, gloss, textured and woodgrain finishes.

Our acrylic doors offer a high gloss lacquer finish with four edgeband options, giving you a wide variety of doors from which to choose.

Ultra high gloss acrylic on the face with a melamine back. Edgebanding options include Matching, 3D Aluminum, Steel Gloss, or Brushed Steel.

PAINTED Doors

Our painted door program offers a clean modern style and finish.

Painted MDF doors offer a better alternative to a painted wood door.

Painted wood doors can show cracks at the seams over time and continuous use.

MDF offers a clean smooth stable surface which translates to a better finished product.

Creating just the right look begins with choosing just the right wood. Wood is a natural product possessing many unique character traits. These traits not only make wood beautiful and desirable it also means no two pieces, of maple, for example, are exactly alike.

Fine cabinetry needs to do much more than just look beautiful. It must function exceptionally well and maintain its beauty and performance for a long time. Those characteristics are what make custom cabinetry a sound investment. They are also hallmarks of Cordelia Cabinets.

Cordelia Cabinets manufactures outdoor cabinets and outdoor kitchens that are 100% weatherproof. Our outdoor cabinets are made from high quality, High Density Polyethylene (HDPE) 3/4" polymer material. Originally produced for the yacht industry, Boat Board polymer will not rust, rot, corrode, mold, mildew, or de-laminate outdoors. Our cabinetry is designed to withstand the constant punishment of being exposed to sun, salt, rain, snow, and extreme high and low temperatures. It will not fade and it never needs to be painted. It has a durable, easy to clean surface and is FDA approved for food service environments.
